All our Hosta's are ELISA tested and found to be negative for the following viruses:  
 AMV, ArMV, CMV-A, CVB, HVX, INSV, PEBV, Potyv, ToRSV, TRSV, TRV, TSV and TSWV  
 Additionally the mother plants for our Hosta production are PCR tested for HVX and TRV.

Please inquire for availability, pricing and shipping terms

\* - off type claiming can not be accepted as the variegation is not yet visible in the tissue culture plants

\*\*\* - these varieties will have a higher price due to off type selection during production
